Introducing Quantum-Touch® — The power to heal.

BY EVA-MARIA MORA

HAVE you ever thought that healing with the touch of the hands required a special gift? Were you sure that you did not have "the gift?" So was I, until I experienced Quantum-Touch.

I met Richard Gordon, Quantum Touch founder and author of *Quantum-Touch: The Power to Heal*, three years ago. He got my attention when he quoted Dr. C. Norman Shealy, M.D.: "Quantum-Touch appears to be the first technique that may truly allow us all to become healers."

I was skeptical and probably wanted to prove to him that I could not do it, so I took his workshop. My jaw dropped when, all around me, I saw what I can only call "miracles." People's shoulder pain, neck pain, headaches and all other pain began to diminish almost immediately.

Rebecca, who came to the workshop on crutches, didn't need them by the second day of the workshop; her leg had straightened out. When I was running the energy for a person with scoliosis, vertebra by vertebra, her spine shifted and her back became straight for the first time in 35 years. I was shocked, but you can see pictures on www.quantumtouch.com.

During the workshop, I learned that Quantum-Touch uses universal energy, rather than individual energy. By practicing specific breathing techniques, anyone can raise their

energetic vibration to a very high level. Then, by lightly touching the other person, a Quantum-Touch practitioner can cause the client to entrain to the healer's vibration. That is, the practitioner raises the client's energetic vibration to meet the practitioner's, and the healing begins. The client's own body intelligence uses the energy to heal itself.

The most amazing aspect of Quantum-Touch is that you can use it to address practically any health issue a person might have. We don't have to be able to diagnose the person's problem. We don't have to know all the details of human anatomy (or animal anatomy, if your client happens to be a non-human creature). The body simply directs the energy to where it is needed.

We can use Quantum-Touch on ourselves, our family members and friends, not to mention our pets and houseplants. Besides allowing physical healing, Quantum-Touch also opens pathways for the release of emotional issues and enhances psychic abilities. This work truly offers a quantum leap forward in facilitating an individual's healing process.

After the workshop, I told Richard Gordon that I wanted to become a QT practitioner and instructor and bring the technique to Europe. I did become the first QT instructor in Phoenix and the first one to teach in Europe. Today, I teach as many people as I can, including children, all over the world. Quantum-Touch is easy to learn and simple to use - anyone can learn to use it. I see miracles and healings occur in every single one of my workshops, and I am deeply touched and grateful for all of them.

We all have the innate ability to affect others' lives with a simple touch. Don't miss out on that!

Eva-Maria Mora is a clairvoyant medical intuitive with an MBA. She is a personal coach and spiritual advisor, a certified Quantum Touch instructor, holds a degree in psychotherapy and is a certified healing practitioner. She is trained by Doreen Virtue in Angeltherapy and Mediumship. Born and raised in Europe, she speaks four languages and teaches worldwide. 480-200-7580 or www.quantumangel.com.
